

MICHAEL EMMANUEL ESSIEN-ETI

Address: Rotimi Amaechi Street, Tinapa, Calabar, Cross River State, Nigeria

Phone: +234 811 796 4140

Email: michealeti2006@gmail.com

LinkedIn: [linkedin.com/in/micheal-eti-b79b6a26a](https://www.linkedin.com/in/micheal-eti-b79b6a26a)

PROFESSIONAL SUMMARY

Motivated and results-oriented Software Engineering graduate from Babcock University with practical experience in mobile and web application development. Skilled in building scalable and user-friendly applications using React Native, Next.js, Firebase, Supabase, PostgreSQL, and modern JavaScript technologies. Experienced in API integration, cloud databases, authentication systems, and responsive user interface design. Strong problem-solving and analytical abilities with a passion for developing innovative software solutions that address real-world challenges.

EDUCATION

Bachelor of Science (B.Sc.) in Software Engineering

Babcock University, Nigeria

Expected Graduation: July 2026

PROFESSIONAL EXPERIENCE

Software Engineering Intern

PSP Analytics

- Assisted in the design, development, and maintenance of software applications.
- Collaborated with development teams to analyze requirements and implement technical solutions.
- Participated in software testing, debugging, and performance optimization.
- Supported database management and application documentation processes.
- Gained hands-on experience with industry-standard software development practices and workflows.

TECHNICAL SKILLS

Programming Languages

- JavaScript
- TypeScript
- PHP
- SQL

Frontend Development

- React
- Next.js
- HTML5
- CSS3
- Tailwind CSS
- Responsive Web Design

Mobile Development

- React Native
- Expo

Backend Development & Databases

- Firebase Authentication
- Firestore
- Supabase
- PostgreSQL
- Appwrite

Tools & Technologies

- Git
 - GitHub
 - REST APIs
 - API Integration
 - Database Design
 - Software Testing
 - Agile Development Practices
-

PROJECTS

GreenSight Agricultural Intelligence Platform

- Developed a mobile application that provides farmers with weather forecasts, soil insights, market prices, and agricultural recommendations.
- Integrated third-party APIs for environmental and agricultural data collection.
- Implemented cloud-based data storage and user authentication.

Library Management System

- Designed and developed a system for managing books, users, borrowing records, and library operations.
- Improved record organization through efficient database design.

Travel Management System

- Built a platform connecting travelers with hosts.
- Implemented content management, booking workflows, and communication features.

Landlord Management System

- Developed a property management solution for landlords and tenants.
- Included tenant management, property records, payment tracking, and administrative controls.

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Communication
- Team Collaboration
- Leadership
- Time Management
- Adaptability
- Attention to Detail

ACHIEVEMENTS

- Developed multiple full-stack web and mobile applications using modern technologies.

- Applied software engineering principles to real-world projects and solutions.
- Demonstrated proficiency in cloud-based backend services and database technologies.
